

Safer Sutton Trader Scheme

Introduction

Sutton Council's Business Regulation Service is committed to providing a fair and impartial service to consumers and the trade.

The Safer Sutton Trader Scheme has been introduced so that local residents can use traders who come to work at their home, confident that certain standards will be met. It will encourage businesses to demonstrate their commitment to fair, professional and honest trade, so that they can be included in a list available to the public.

The Standards

Certain standards are required for a business to be included in the Scheme and these must be demonstrated. The business:

1. Must operate, but not necessarily be based, in Sutton and must have been trading for at least one year.
2. Must ensure its documentation complies with the requirements of the Business Names Act 1985 and the Companies Act 1985.
3. Should be aware of and committed to complying with its legal obligations, particularly under the Trade Descriptions Act 1968, the Supply of Goods and Services Act 1982, and Health and Safety legislation.
4. Must recognise that customer care plays an important part of being included on the list. The way a trader deals with a complaint is just as important as how it is finally resolved. Customer complaints should be dealt with quickly and courteously.
5. Should provide evidence of a complaints procedure. If the complaint cannot be resolved, the customer should be referred to the Business Regulation Service. Extra consideration and understanding should be shown when dealing with particularly vulnerable customers, such as the elderly.
6. Must provide five references relating to previous work in a consumer's home, two of which must be in the London Borough of Sutton.
7. Must provide proof of membership of a recognised Trade Association or Registration Body and be committed to complying with any Code of Practice of that organisation. Alternatively, or in addition, the business must be able to demonstrate relevant experience.

8. Must have staff who have achieved a pass in a recognised training scheme or be able to demonstrate that their experience is equivalent to this. Evidence is required.
9. Will be committed to ensuring compliance with Building Regulations, Water Regulations, Gas Safety Regulations, Wiring Regulations, Health and Safety at Work Act, Clean Air Act, relevant British Standards or European, Asbestos Regulations and all other appropriate regulations and standards.
10. Should ensure that disturbances due to noise, vibrations, dust and smoke arising from demolition and construction works on all building sites, including the public highway, within the London Borough of Sutton, are kept to an acceptable level.
11. Will make known to the customer any call out charge prior to the visit being made.
12. Will provide to the customer a written schedule of works and a written quotation. Any charge for this schedule or quotation shall be made known to the consumer in advance.
13. Will give the customer an invoice or receipt showing full details of work carried out including parts supplied and labour and other costs.
14. Must be adequately insured to cover loss or damage to consumers' property. Evidence is required.
15. Must ensure all staff dealing with gas are on the GAS SAFE REGISTER and must be able to demonstrate that they are so registered. From 1 April 2009.
16. Must be registered with a scheme approved by the Department of Communities and Local Government for carrying out electrical work, and must be able to demonstrate that they are so registered.
17. Should be committed to acting in an environmentally responsible manner, using where appropriate, sustainable and energy efficient materials and disposing of waste according to the appropriate legal requirements.
18. Must ensure that no person is discriminated against or refused service on the grounds of age, race, gender, disability, marital status, sexual orientation or religious belief.

The Trader's Commitment

In order to be included in the Scheme, the trader must show commitment to the following:

Trading in compliance with the standards of the Scheme.

Observing all legal requirements in carrying on the trade or business, in particular:

- Disclosing business names
- Not restricting consumer rights
- Using accurate descriptions
- Supplying goods of satisfactory quality, fit for purpose and as described
- Carrying out work with reasonable care and skill, within a reasonable time and for a reasonable price.

The business is responsible for the work and actions of its sub-contractors.

Customer Feedback

If you use a trader from the Safer Sutton Trader Scheme, we would welcome your comments. Please complete the enclosed feedback form at the end of this booklet and return it to:

London Borough of Sutton

If you need further information or more feedback forms, please contact the Business Regulation Service.

Sutton Staying Put

Sutton Staying Put is a non-profit making Home Improvement Agency, providing a valuable support service for older, disabled and other vulnerable people within the community to enable them to remain in the comfort and safety of their own homes.

- Staying Put works closely with the Council's Residential Premises section.
- Services are overseen by a multi-agency Steering Group, which includes service users' representation.
- Staying Put assesses what needs to be done, gets specifications, discusses payment, advises on, and if applicable, makes grant applications to the local authority.
- Staying Put organises reputable builders and supervises the work, in order to ensure that everything runs smoothly. Where works are not grant-eligible, a fee will be charged.

Since 1995 the Agency has helped well over 2,500 homeowners with repairs and major renovation works to their properties. The Agency also works closely with the Sutton Occupational Therapy Section and has successfully adapted large numbers of properties to enable disabled people to live more independently.

Handyperson Scheme

Sutton Staying Put, the Council's in-house Home Improvement Agency, is delighted to announce that it has established a fully operational "Handyperson" scheme to assist disabled or vulnerable people within the Borough. The scheme is designed to cover the smaller repair jobs around the home that larger contractors may not want to do.

Who is eligible?

People who are disabled or vulnerable and in receipt of an income related benefit (e.g. Income Support, Pension Guarantee Credit, Council Tax Benefit) or have limited savings. The scheme is available to people of all ages.

How can we help?

If people can supply or pay for the cost of materials we can provide limited financial assistance towards the labour costs of a wide range of minor repairs around the home and introduce Contractors from our approved list to carry out the work.

What types of work are covered?

All basic minor building, carpentry, electrical (excluding full re-wires), plumbing, heating & roofing work.

For more detailed information about the scheme and the types of work that are covered please contact the Project manager – Sue Bennett
Address: 24 Denmark Road, Carshalton, Surrey, SM5 2JG
☎: 020 8409 7061 Email: sue.bennett@sutton.gov.uk

Age Concern Small Job Service

Age Concern offers a prompt, reliable service for those who are worried about allowing total strangers into their homes to carry out repairs. They can assist with most aspects of house maintenance. They can help with decorating, carpentry, fencing, laying lino, assembling flat pack furniture, tuning in TV's and digital boxes. However we cannot take on electrical or plumbing work this is a chargeable service, although estimates are free, and in some cases grants are available and any profits go back into providing services to local older people.

For more information about the service call ☎: 020 8770 4097

Age Concern 2 Lower Square, St Nicholas Way, Sutton SM1

Web: www.ageconcernsutton.org.uk

Email: admin@ageconcernsutton.org.uk

Gas Safe Register™

Gas safety in Great Britain has changed. CORGI gas registration ended in Great Britain and Isle of Man on 31 March and no longer applies to gas safety law. From 1 April, all gas engineers must be on the new Gas Safe Register™ to carry out gas work lawfully.

For landlords the requirement for annual maintenance and safety checks on gas appliances hasn't changed but landlords should make sure these are carried out by a Gas Safe Register engineer.

You can find or check a Gas Safe Register engineer 24 hours a day, 7 days a week online at www.GasSafeRegister.co.uk or call ☎: 0800 408 5500.

Remember to check the engineer's Gas Safe Register ID card.

Safer Sutton Trader Scheme

Welcome to Sutton Council's Safer Sutton Trader Scheme.

Please note the following points before contacting a trader on this list:

The traders in this list have demonstrated their commitment to trading in a fair, professional and honest way.

This is not an approved list. The Council does not recommend the traders on the list.

The inclusion of a trader on the list is only an indication that the trader has made a commitment to meet certain standards, and does not mean that the Council in any way guarantees or accepts responsibility for any aspect of the work undertaken by, or agreements that a customer makes with, a particular trader. In every instance the decision must rest with the customer.

If you do use a trader from this list, we would welcome your comments. Please complete the customer feedback form and return it to the Business Regulation Service address mentioned below.

As new members join the scheme we will up date the list. To see the latest version you can visit the council's website at www.sutton.gov.uk. The back page will have a date and edition number.

Do not forget you may need Planning and/or Building Regulations Approval. For further information, please contact:

Safer Sutton Trader Scheme

FEEDBACK

You have recently employed a trader from the Safer Sutton Trader Scheme list to carry out work on your behalf. Please can you help us by answering the following questions?

Any information given will be treated in confidence.

Name of trader

What type of work was carried out?

.....
.....

Were you satisfied with the completed work? YES NO

If 'no', why were you dissatisfied?

.....
.....

Was the work completed on time? YES NO

If no, what was the reason? Do you think it was a good reason?

.....
.....

Was the price charged the price quoted? YES NO

If 'no', was there a reason? Do you think it was a good reason?

.....
.....
.....
