

CROSS SECTIONS OF CONSENTABLE ACTIVITIES

Pipe Culvert (including extension and removal of) - under Section 23 1(b)
Consent Required

Oversized Box Culvert (including extension and removal of) - under Section 23 1(b)
Consent Required

Trash Screens - as it is an alteration to a culvert and has the potential to obstruct flow.
Consent Required

Bank Protection Works - under LDA 91, (temporary works may require consent).
Not Consentable

Pipe crossing (in channel) - under Section 23 1(a)
Consent Required

Pipe Crossing (above bank) - under LDA 91 as it does not interfere with flow.
Not Consentable

Pipe Crossing (below bed) - under LDA 91 as it does not interfere with flow - Potential temporary works consent. **Not Consentable**

Protruding Pipe Outfall - under LDA 91 as it will not act like a dam/weir or like obstruction. **Not Consentable**

Outfall with Bank Profile - under LDA 91 as it does not interfere with flow - Potential temporary works consent. **Not Consentable**

Weir/Dam or impoundment or temporary works that obstruct flow - under section 23 a).
Consent Required

Bridge (where soffit level is below bank top level) - under Section 23 1(a) if it has the potential to affect flow. **Consent Required**

Bridge (abutments protruding but not reducing flow area/width) - under LDA 91 as does not interfere with flow interfere with flow. **Not Consentable**

Bridge (abutments restricting flow) or Flume - under Section 23 1(a).
Consent Required

Clear span bridge - as it does not interfere with flow.
Not Consentable

Bridge with support in channel - under LDA 91 as it will not act like a dam/weir or like obstruction. Need to consider size of pier against the size of the watercourse, but would want to discourage the use of a pier in a watercourse.
Not Consentable

Note: "flow" should be determined as bank full flow conditions
