

The STEAM Summer Calendar

Stories from the Shed

Stories from the Shed is a community programme driven by local artists that explores Sutton's connections to the scientific achievements, people, places and landscapes that have helped to shape life in the borough. From storytelling and plays that young children will love, to workshops and installations for art-loving adults, check out all the events to find your perfect performance in of several micro venues across the borough, including Honeywood Museum and Little Holland House in Carshalton and Whitehall Historic House in Cheam.

Summer Programme

Sutton Council's Cultural Services are delivering a jam-packed programme of events - this year it's all about STEAM. We have an enormous range of events and activities; from printing sessions, and heritage crafts to exhibitions and family SEND Quiet days. Book your place on Summer Reading Club-themed events like the STEAM storytime events in several Sutton libraries and locations and drop-in activities entertaining to all primary school children available across all libraries. There's something for everyone to enjoy throughout the summer holidays!

Summer Reading Club

We're encouraging children (4-11 years old) to read six books over summer: you can pick up a Summer Reading Club passport, filled with recommendations of STEAM (Science, Technology, Engineering, Arts and Mathematics) themed reads in our libraries.

Children who sign up to the Summer Reading Club and complete any of the challenges below are in with a chance of fantastic prizes as seen in the passport. There will also be a fantastic school prize, for the Sutton primary school who read the most books combined over the summer!

1. Write the next chapter of your favourite summer read!
 2. Draw or paint a character or scene from your favourite summer read!
 3. Write a book review of your favourite summer read!
- Please send competition entries to arts@sutton.gov.uk (writing Summer Reading Club Competition Entry in the subject), or bring entries to your local library. Entries must include child's name and library card number. Entries may be displayed in library branches. Winners selected by random prize draw.
