

THE AUTISM PROJECT

Year One

The Autism Project year one is full time; students attend Monday to Friday, 36 weeks a year.

The aim of the course is to get students 'work ready'.

Students spend approx. 4 days a week in the workplace and complete up to 3 work experience placements during the academic year.

City & Guilds

Students spend a day in class where they study towards a City & Guilds Employability Skills qualification and Functional Skills (if required).

Placements are typically based in Guy's & St. Thomas' hospitals, or the Whittington hospital. Placements can be in various departments.

Students also have the opportunity to attend social events

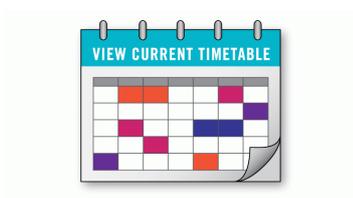

THE AUTISM PROJECT

Year Two

Once students are 'work ready', they can move onto year two of TAP. This can take up to three terms, but students can also 'fast-track' after one or two terms.

Students attend 3-5 days a week, Monday-Friday.

Students attend a work experience or volunteering placement 2-3 days a week. This does not have to be in the hospital.

City & Guilds

Students continue to spend a day in class where they study towards a City & Guilds Employability Skills qualification and Functional Skills (if required).

Students have the opportunity to attend practice interviews with real employers or professionals.

Once a week, students have a job search session. Staff help students to create a CV, and to search and apply for jobs.
